Good Working Knowledge

Skills

Backend & Frontend

Javascript - Node.js

PHP - Python

Vue.js - React.js

Docker - AWS - Heroku

MongoDB - Redis - GraphQL

PostgreSQL - PostGIS

MySQL - SQL Server

AMQP - Kafka - Gearman

Geoserver

About Me

Working on software since 2011.

Bachelor of Engineering - Information Systems Engineering.

I worked in Marketing Online, Telecommunications, GIS, Healthcare, and Fintech.

I love learning new technologies and believe I can work with any technology and carry forward any project.

Education

Information System Engineering. National Technology University

03/2004 - 05/2011

This degree is similar to a bachelor of Software Engineering.

For more information about this, go to [UTN - FRSE](#).

Experience

Senior Software Engineer. Nowsta

11/2022 - Present

All-in-one software for hourly and event-based workforces, providing scheduling, time tracking, and fintech solutions. TypeScript, Amazon Web Services (AWS), NestJS, React.js, and PostgreSQL.

Senior Software Engineer. Bancoli

06/2021 - 10/2022

Fintech - online Bank. Design and development of new features. Node.js, Express, MongoDB, Vue.js, and Jest. Circle and Wise integrations.

Senior Software Engineer. Endava

07/2019 - 07/2021

Contractor for WellSky, a Healthcare software company from the USA. Design and development of new components and features for the company's software. ColdFusion, Angular Js/9, SQL Server, C#, Kafka, PSQL and others.

Software Engineer. Interlink

05/2013 - 07/2019

Research, design and development of solutions applied to Telecommunications (HFC/FTTH). PHP, NodeJS, MongoDB, Redis, MySQL, Gearman, AMQP, Maps, HighCharts and others.

Developer. Eniti Media

04/2011 - 04/2013

Development and support of web platforms relate to Marketing Online. PHP, MySQL, HighCharts.

Software Engineer. Incuwebs

Freelance job, ten projects (five GIS projects). Design, development, and implementation of solutions. PHP, Python, Javascript, PSQL, MongoDB, Maps, Geoserver, HighCharts, and others.

Courses / Trainings

NodeJs and React.js - NodeJs: Advanced Concepts - NodeJs and Angular - Python and Flask - Python and Machine Learning.

Projects

MakeResume.co

02/2021 - Present

I made [makeresume.co](#) to learn new technologies and at the same time, to create an app that makes good quality resumes in a few minutes.

Some technologies, tools or languages ([more detail](#)): Node.js, React.js, FlexBox, Handlebars, MongoDB Atlas, AWS (EC2 - Load Balancing - S3 - CloudFront - Route 53 - Cert Manager).

You can visit my [GitHub profile](#) to see more personal projects.
